## **Article 4 – delivery of the admission test**

### 4.1 Test modality

The admission test for the International MD Program reserved for EU citizens will take place in different sessions scheduled **between February 27, 2023 and March 4, 2022** as detailed in the table here below. The admission test is **home-based** and takes place with an **online proctoring system**.

Seen the number of candidates who have registered for the past admission tests, the admission test cannot be taken contemporarily by all candidates signed up and therefore the EU citizens' admission test is organized in two sessions as follows:

DAY	TIME
Friday March 3, 2022	09:30 (CET)
Saturday March 4, 2022	09:30 (CET)

#### 4.2 – Technical information

Starting 5 days prior to the test date technical requirements and instructions for the admission test will be sent from the e-mail address **convocazioni@ilmiotest.it** to each candidate's personal e-mail address indicated during the online registration procedure.

Should the communication from convocazioni@ilmiotest.it not be received it is advisable to check the SPAM box.

If the e-mail is not found in the SPAM box either, it is necessary to contact Selexi at convocazioni@ilmiotest.it asking them to send the communication again.

Candidates are responsible for verifying the speed, stability and quality of the signal in the location where the test is going to be taken.

Candidates are considered solely responsible for possible signal interruptions that may occur during the admission test that would prevent them from partially or fully completing the exam.

Should the bad signal or a signal interruption impede the proctor's monitoring of the location where the test is being taken the Head of the Competition Procedure, in agreement with the Commission, has the authority to exclude the candidate from the competition.

Candidates are required to follow any further instructions or technical details Selexi might provide.

By activating the video connection candidates give their consent for the video recording and the collection of personal data necessary for the time tracing and reconstruction of each phase of the test.

Should the number of candidates be higher than the number of virtual seats available for the online test session, further sessions could be scheduled and notified on the University website [www.univr.it](http://www.univr.it) before the closing date of test registrations.

#### 4.3 – Technical requirements

In order to take the test, it is necessary to have:

1. A laptop (operating system Windows 8 or later versions or LINUX) or a MAC PC (MAC-OS 10.14 or later versions) with webcam and microphone.

3. Internet connection with a minimum upload and download speed of 1.5 Mbps.

It is recommended to use a wi-fi connection.

Candidates will be required to download an APP (34 MB) available on Google Play for Android or App Store for IOS on the smartphone or tablet used for the test.

**Please note that a tablet may be used in place of the smartphone alone and NOT of the laptop or MAC.**

Should a candidate make and pass the technical checks using devices with lower technical features than those indicated above, the possibility to take the admission test is not guaranteed.

#### 4.4 – Check requirement

Starting 5 days prior to the test date Candidates will receive instructions, as indicated at the paragraph 4.2, to take the check requirement. Check requirement must be carried out within 24 hours prior to the test. Specifically, Candidates must:

- Install the Google Chrome Proctor Exam plug-in, needed for the video surveillance during the test.
- Install the App Proctor Exam on the smartphone or tablet in use during the test.

Candidates must follow the procedure to test the correct setup and operation of:

- PC / Mac audio and microphone
- PC / Mac webcam
- smartphone / tablet webcam
- Internet connection

At the end of the check requirement, candidates receive a second e-mail from [convocazioni@ilmiotest.it](mailto:convocazioni@ilmiotest.it) with the link to access the exam with date and time of convocation. The indicated time must be strictly respected in order not to slow down the identification operations that precede the exam.

#### 4.5 performance of the test

On the day and at the scheduled convocation time, candidates must proceed with the connection of the devices already verified during the "check requirement" and, subsequently, the resumption of the workstation and the environment in which the exam takes place using the webcam of the smartphone / tablet.

Subsequently, candidates will have to connect the smartphone / tablet to a power outlet and place it behind them so that it is always able to frame the surrounding environment.

The identification procedure requires you to show and take two photos: one photo of the identity document and the other of the candidate's face.

The identity documents allowed are:

- identity card
- driving license with photo
- passport
- firearms license

At the end of the setup of the workstation and the identification phase, candidates must click the link to the exam test and will view a page with instructions for carrying out the test and using the exam application (duration of the test, scores of the answers, mode of operation, rules of behaviour to be observed).

Candidates will have the necessary time to read the operating instructions and will have to wait until the start of the test.

Candidates who for any reason log in after the identification stages have been closed or without a valid identity document will not be admitted to the test.

Candidates who are absent from the test after the closure of the identification procedures will be considered as having withdrawn.

The duration of the waiting time may vary depending on the progress of the identification operations for all the candidates called.

In case of need, it will be possible to contact technical assistance via the Chatbox available on the platform for the entire duration of the identification procedures and the test itself.

At the end of the identification phase of all the candidates called, the "Start the Test" button will appear on the screen: from that moment the candidates must click on the button and start the test.

At the end of the time scheduled for the test, candidates must log out by clicking on the appropriate button and then the "End test" button.

If a candidate ends the test before the time limit expires, he can click the "Close the test" button and then "Logout" and "End test".

#### 4.6 rules of conduct for conducting the test

During the test, candidates can only use their own PC / Mac without the aid of additional screens, keyboards or mouse.

It is allowed, after verification by the proctor remotely during the identification phase, the use of two sheets of white paper and a pen to carry out any calculations.

#### 4.7 reasons for exclusion from the test

Candidates are required to observe the following provisions, under penalty of exclusion from the test:

In the event of disconnection of one or more video devices necessary to allow video surveillance (e.g. smartphone and / or tablet), for a period of more than 5 minutes, the Head of the Procedure assisted by the test provider and by the Commission for admission tests will assess whether to allow the candidate to proceed with the test or to determine its cancellation.

#### 4.9 – Candidates with disability or with SLD

Candidates with any kind of permanent or temporary disability in need of extra means of support, must formally request the support they will need for this test in relation to the extent of their disability, be it also further time for completing the test (law n° 104 February 5, 1992). Candidates with learning disabilities according to the law n°170 October 8, 2010 with the new regulation concerning specific learning disabilities within the educational environment can request the special terms according to the Ministerial Decree n. 5669, July 12, 2011.

In order to submit their request for support, Candidates are required to follow a two-step procedure:

- Upload the medical certification in support of the request compulsorily and exclusively during the registration phase for the Competition (<https://univr.esse3.cineca.it/Root.do>)
- Upon registration for the Competition, and following the procedure, the request for support must be indicated compulsorily and exclusively in the Selexi Portal, together with the choice of the session and payment.

It will not be possible to upload new documents or submit a new request if not previously indicated in the online procedure.

According to the law n. 170/2010, certificates confirming learning disabilities must not be older than 3 years and must be issued by specialists or offices of the National Health System or by private health institutions recognized by the National Health System.

The Inclusion Office will provide feedback to each request entered by the day before the date of the test indicated, via e-mail, to the candidate's address.

## **5 - content of the test**

The test is entirely in English and consists of 60 multiple choice questions divided as follows:

- 36 questions on logic, problem solving and reading comprehension;
- 24 questions on scientific subjects (Biology, Chemistry, Mathematics and Physics)

Candidates will have **80 minutes** to complete the test.

The questions of the admission test are property of Università Vita-Salute San Raffaele, managed by a third party and randomly extracted from a database.

Since the admission test is delivered in more sessions (as specified at point 4.1) and in order to guarantee transparency and impartiality, each exam session will have its own set of questions divided as previously explained.

For each exam session there will be a minimum of three different sets of questions available. One of these sets of questions will be randomly chosen through an automated tool before the beginning of each session.

### 5.1 Reserve questions and deleting procedure

At the end of the test (i.e. at the end of the 80 minutes or if the candidate decides to finish the test earlier) every candidate will have to answer **7 more questions** in a time which is proportional to the time given for the entire test and which is calculated automatically by the software. These reserve questions are coherent with those of the test and **WILL NOT count as part of the test** but will only be considered if, at the end of all scheduled sessions, an anomaly should emerge on one or more questions. Only in this case, the Head of the Selection Procedure, after having received the Committee's opinion, can decide to delete that particular question and substitute it with one of the extra questions on the same topic.

## **Article 6 – ranking list**

After all exam sessions will have ended, the tests will be anonymously corrected and the ranking list will be drawn up in the base of each candidate's final score.

The score is calculated as follows:

- 1 point for each correct answer;
- -0,25 points for each incorrect answer;
- 0 points for each non-given answer.

The ranking is formed with the overall score obtained by each candidate.

The Admissions Office will publish a notice on the website [www.unisr.it](http://www.unisr.it) informing on the opening of the Online Review system after the last admission test session will have taken place.

### **The final ranking list will be published within 15 days from the last exam session.**

In case of a draw, the points scored by the candidates in logic and problem solving, reading comprehension, biology, chemistry, mathematics and physics will prevail in descending order. In case of a further draw, the place is assigned to the youngest candidate.

The scores obtained by the candidates and the ranking list will be available on the University's online Board and on the dedicated pages of the website [www.unisr.it](http://www.unisr.it).

Candidates ranking among the first 86 positions and with a score equal or higher than 45/60 will be admitted and will be able to enrol without having to meet any additional learning requirements (OFA).
