The Course consists of the following 4 research areas:

- Ethics and Politics
- Philosophy of Language, Logic and Epistemology

UniSR announces the Call for Applications for the admission to the three-year PhD Course.

The following **5 positions** will be assigned through the present Call:

The number of fellowships may be increased by subsequent measures as a result of additional funding. The commitment to announce another call for such positions is formalised and the deadline for the submission of the applications for admission remains the same.

The terms for the allocation of the above positions are indicated in art. 5

Moreover, those who have not applied for the admission to the PhD Course within the terms indicated by this Call will be enrolled in the PhD Course as supernumerary students if they:

- have been selected in European Union Research Programs or in other international cooperation programs in which UniSR participates;
- hold the qualifications required by this Call;
- apply for admission to the PhD Course within the first half of the first academic year;
- can attend the courses from the moment of the enrollment.

However, registration is subject to the verification of the qualifications, report/s of the admission tests and to the approval of the PhD Academic Board. Please note that the equivalence between a foreign qualification and the Italian degree must be assessed by the PhD Academic Board.

Article 2 Admission requirements

The application to the PhD Course in Philosophy can be submitted, regardless of age or citizenship, by those holding a 5-year University Degree (according to the old Italian regulation), a Master's Degree (according to the new Italian regulation) (hereinafter, the "Degree") or an equivalent foreign academic qualification. The suitability of the foreign qualification is verified beforehand by the Committee for admission to the PhD Course, in compliance with the legislation in force in Italy and in the country where the title was issued also under international agreements on the recognition of qualifications for the continuation of studies.

For those who have obtained more than one academic qualification, the one submitted in the application form will be considered for the participation in the Call.

Last year Master's degree students can also apply to the PhD Course **only if they graduate before October 31st, 2026, whereas the beginning of the Course is fixed on 1st November 2026**. By November 15th, 2026, all candidate graduate students admitted to the selection "*sub condicione*" and awarded with a position must give evidence of having graduated within October 31st, 2026, under penalty of exclusion from the Course.

Those who have already a second-level qualification suitable for eligibility for a PhD Course and who are about to obtain an additional second-level academic qualification, will not be considered as "*sub condicione*" undergraduates but the qualification already obtained will be evaluated for this procedure.

Italian, EU and non-EU citizens holding an academic degree awarded abroad not yet declared equivalent to an Italian degree, must upload in addition the documents listed below in order to have the degree acknowledged by the Admission Committee as being eligible for this PhD competition purpose only:

1. Copy of the original Master's Degree Diploma or equivalent (only if the diploma has already been issued by the University);
2. Copy of the original Bachelor's Degree Diploma and certificate with the indication of the degree, if obtained abroad. This must include also the official record of the degree, including the list of the exams passed and the relevant marks translated into Italian or English;
3. Certificate of the Master's degree, including the list of the exams passed and the relevant marks, translated and validated by an Italian diplomatic representation (Embassy or Consulate) of the country where the degree was awarded or a similar document in English issued by the University which issued the qualification
4. DV document (declaration of value - "dichiarazione di valore in loco") to be requested to the same diplomatic representation or the certificate of comparability issued by CIMEA (Information Centre on Mobility and Academic Equivalences).

Instead of the certificate indicating the official record of the degree with the list of the exams passed during the Bachelor and/or Master's Degree, it is possible to present the diploma

supplement in English with the same information required for the certificate and issued by the University in which you got your academic qualification.

In case a candidate is unable to submit the documentation referred to in point 4), together with the application to be admitted to this competition, or in case he submits the documentation described in point 3) in English, the Admission Committee will decide whether to admit the candidate with provisional admission pending the assessment of qualifications step of the selection process.

In order to be considered eligible and not be excluded from the competition, candidates admitted with “provisional admission” and/or “*sub condicione*” to the selection, if winners of a position, must proceed as follows:

- those admitted “*sub condicione*”, by November 15th, 2026, must provide evidence of having graduated within October 31st, 2026;
- those admitted with “provisional admission”, by December 31st, 2026, must submit the certificate as defined under item 3) and 4).

If the documentation submitted makes it impossible to declare the foreign degree equivalent to an Italian eligible degree, the winning candidate admitted with provisional admission will not be considered eligible and will be excluded from the competition.

A good knowledge of English language is required for all candidates.

Article 3 Admission applications

Applications can only be made online through the Reserved Area using the following UniSR link (<https://univr.esse3.cineca.it/Home.do>).

In order to be admitted to the selection Italian citizens, EU and non-EU citizens must pay € 50,00 fee following the instructions indicated on the online registration form.

Please note that the fee payment alone does not imply that the candidate has registered correctly to the selection unless all the steps indicated in the form have been fulfilled. Registration to the competition consists of four steps:

1. Registration of personal data;

Article 5 Procedure for the Admission to the PhD Course

Admission to the PhD Course consist in a two-stage comparative evaluation procedure as defined below.

For the purposes of the final ranking, which will be expressed on a scale of 100 points, up to a maximum of 60 points can be awarded to the submitted qualifications, the written project, the information on the candidate's education and research experience as provided in the application, and the candidate's references, in accordance with the criteria established by the Admission Committee in a dedicated meeting. Up to a maximum of 40 points may be awarded for the second stage of the evaluation.

The final rankings will be published as indicated below and will show the score, the name and surname and the birthdate of the candidates.

5.1. First evaluation phase

This phase is carried out by the Committee and does not require the presence of the candidates. It concerns the evaluation of:

- a) the qualifications submitted as described above, namely:
 - information in the electronic form;
 - degree (5-year degree, as per old Italian regulation, or Master's Degree, as per new Italian regulation), final graduation mark, and list of the exams and the relevant marks;
 - any presentations of abstracts at congresses and publications relevant to the contents of the course sent in electronic format (as specified by art. 3 of this call) if already published, or, if accepted for publication, upon production of adequate proof of acceptance by the editorial managers; as declared in the current Call for Application for admission and sent with the documentation for the Call for Application.
- b) the written project describing the candidates' research interests submitted in the Application (written in Italian or English) as Art.3;

- c) the reference letters submitted by recognized scientific or academic experts mentioned by the candidates in the application form. These authoritative personalities acknowledge the scientific qualities of the candidates by virtue of their institutional tasks (as per **Annex 1** form).

On the basis of the documentation received and the preliminary assessment criteria, the Admission Committee will then prepare the ranking of the first evaluation phase.

Only candidates who have obtained a score higher than or equal to 60% of the maximum score for the first evaluation of academic qualifications (60 points) will be admitted to the second phase, as per Art. 5.1, items a), b) and c).

The ranking of the first evaluation phase will be published on the online Albo d'Ateneo [University Board], and/or on the University website (<https://www.unisr.it/en/offerta-formativa/filosofia/post-lauream/dottorato/ricerca-filosofia>) at least three days before the start of the second phase of the selection. The publication on the website and/or boards shall be considered the official notice.

After the publication of the list, and for information purposes only, candidates eligible for the second assessment stage will receive a communication to the email address indicated in the application form. Failure to receive the email will not constitute valid grounds for missing the subsequent assessment stages.

5.2. Second evaluation phase

This phase consists of a scientific and aptitude interview, which may be conducted via video conference, with the Admission Committee in accordance with the assessment criteria previously established by the Committee.

The interview will assess, among other topics, the knowledge of English, the general and specific qualifications of the candidates, the discussion of any publication, their motivation for pursuing the PhD Course, and their further professional research development.

During the interview the candidate will need to show one of the following identification documents: identity card, driving licence, passport or any other document issued by a State authority and provided for by law with a photograph and a stamp or another equivalent marking.

Candidates unable to hold the interview at UniSR can ask the Committee to hold it via video conference. Upon assessment of the request, the Committee can authorise or deny the interview via video conference.

At the end of the second assessment phase, the Admission Committee will fill in a final ranking based on a comparative assessment of the candidates and evaluation criteria established preliminarily.

Candidates with a final score lower than 60% of the total score (100 points) will be considered non-eligible.

In case of equal qualification of two or more candidates, the younger candidate will be preferred. Fellowships will be assigned based on the personal financial situation, determined pursuant to art.8 comma 4 of D.P.C.M. 5/12/2013 n.159, to the candidate with the lower ISEE for

services related to the PhD Courses (immediate family). For the purposes of the ranking or in the case of equal ISEE, the younger candidate will be preferred.

The final ranking will be published on the online Albo d'Ateneo [University Board], and/or on the University website (<https://www.univr.it/en/offerta-formativa/filosofia/post-lauream/dottorato/ricerca-filosofia>) within the dates indicated on the website.

The publication on the websites and/or boards of the enrollment instructions shall be considered an official notice for all purposes.

5.3 Assignment of the positions

Positions are assigned on the basis of the candidate's position in the final ranking and of the research area indicated by the candidate at the time of submitting the application.

There will be only one final ranking, which will be updated after each further withdrawal and/or forfeiture.

The publication of the final ranking on the website or any updated rankings will be notified on the website.

Renouncing a fellowship

A candidate can decline a fellowship and maintain the position won only if the candidate already benefits from another type of scholarship (e.g. European research scholarships), or a research grant that guarantees the three-years coverage of the PhD scholarship. In this case the fellowship is assigned to the first eligible candidate for a position without fellowship.

At the time of publication of the final ranking list, for information purposes only, the candidates who can proceed with the online enrollment will receive the communication also via e-mail to the e-mail address indicated at the time of submission of the application. Failure to receive the above e-mail shall not constitute a valid motivation for a missed enrollment.

Fellowships are assigned on the basis of the candidate's position in the final ranking and the preference expressed in the application form. The award process shall consist of two distinct assignment phases.

The ranking is updated according to the assignments and any withdrawal that may occur in each phase, always considering the preferences expressed by the candidates.

The positions will be assigned as follows:

- a) **First phase: 4** fellowships
- b) **Second phase:** the position without fellowship

All candidates awarded a position (with or without a fellowship) must proceed with the registration according to the procedures set forth by article 7 of this call.

After the deadlines for enrollment, candidates who have not complied with the requirements shall be deemed to have renounced their position. These candidates will be

replaced by other candidates according to the order of the ranking. Also, these candidates must meet the deadlines previously mentioned as for the assignment of the projects.

Article 6 Admission Committee

Having consulted the Course Coordinator, the Rector appoints by Decree the Committee in charge of the comparative assessment of the candidates.

The Committee is composed by the Course Coordinator or Vice-Coordinator and five additional members, one of whom must be external to UniSR and the IRCCS San Raffaele Hospital. The members are proposed by the Course Coordinator or the Vice-Coordinator, delegated for this purpose by the PhD Academic Board.

Except for the Coordinator and the Vice-Coordinator, individuals who, as supervisors, have submitted one or more projects funded with their own funding may not be members of the Admission Committee

Article 7 Instructions to enrol in the courses

The candidates awarded with a fellowship shall proceed to complete the enrollment within the following two working days after the publication of the ranking list.

The candidate awarded without fellowship must complete enrollment within five days following the conclusion of the first allocation phase, as specified in Article 5.3. The PhD Office shall notify each candidate by email of the closure of the first allocation phase.

The formalization of the enrollment must be completed through your own dedicated reserved area, in the appropriate page of UNISR website, using the login credentials obtained when submitting the application for the Call for admission (<https://univr.esse3.cineca.it/Home.do>).

All candidates shall complete the enrollment procedure within the second working day from the online enrollment.

If candidates fail to proceed with online registration within the deadline or do not complete registration by the above deadline, they shall be deemed to have withdrawn and shall lose their right to enroll.

By filling out the online application, candidates will also declare:

- Not to be enrolled in a medical area Residency Programs for MD's. In such case the candidate should commit to stop attending it before this PhD Course starts;
- To acknowledge that the admission to the PhD Course demands an exclusive, full-time commitment to the assigned research project and full attendance of the educational and research activities necessary to carry out the PhD in Philosophy with full commitment;
- To be awarded no other fellowship from a PhD Course;

- To receive no other fellowship granted for any reason, with exception of those granted by Italian or foreign institutions that are intended to integrate the PhD student research activity abroad.

Candidates who completed the online enrollment will have to complete the enrollment procedure within two working days from the online enrollment. They must log in again to the reserved personal area, and, from the Menu, they must select “enrollment”, then click on the link “Upload the documents to complete the online enrollment”, and so upload the following documents:

1. The Enrollment Request form that can be downloaded at the end of the online enrollment procedure, duly completed and signed;
2. A copy of the receipt of the first instalment of the annual tuition fee for admission to and attendance of the course (please refer to Art. 11 below). Payment shall be made with the online MAV, which the candidate can download at the end of the online enrollment procedure;
3. Photocopy of both sides of a valid identity document;
4. The additional documentation asked by the PhD Office as required by the University procedure as far as the management of PhD courses
5. The documents that candidates admitted to the selection “sub condicione” were unable to submit during the application for the admission procedure (see art. 2 herein).

After the upload of the documents, the candidate must click on the “Confirm and Close” button, and the PhD Office will provide the confirmation of the enrollment within the next two working days.

If the candidate does not upload the required documents or does not complete the payment of the first fee instalment and contributions within 2 working days after the online registration, they will be deemed to have renounced their right to enrol. No justification for the delay will be considered. This vacancy will be available for other candidates according to the order of the ranking of admitted candidates and in accordance with the procedures set forth in Article 5.3 above.

The beginning of the PhD and/or the payment of the first monthly fellowship may be postponed, with respect to what is communicated by the PhD Office, only for justified and verifiable reasons.

Non-EU candidates awarded with a position and applying for a Visa will have to:

- enrol online as indicated in this article;
- complete the enrollment within the two subsequent working days and submit the documents as indicated at point 1) and 5)

Please note that non-EU candidates residing abroad must complete the pre-enrollment procedure on the University portal in order to apply for a study visa, in accordance with the procedures and deadlines established by the Ministry of University and Research.

The PhD Office will consider the enrollment procedure completed once the candidate provides proof of obtaining a Visa. This must occur within five months from the online enrollment. Failure to meet this deadline will result in the loss of the position awarded.

Regarding the prerogatives of the public employees admitted to the PhD program, please refer to the current legislation and the Regulations for PhD Courses of UniSR.

Article 8 Awarding of the PhD title

PhD students may be admitted obtaining the title after the expiry of the legal duration of the PhD Course, which is three years, or after the expiration of any extension period requested and authorized pursuant to the University Regulations.

The procedures for obtaining the degree are detailed in the University Regulation governing the PhD Courses and, in the Courses, operating procedure.

Article 9 Obligations and rights of the PhD students

Each year, an educational program is established, comprising theoretical and/or practical courses, lessons, and seminar activities held by experts that may or may not be members of the PhD Committee.

Without prejudice to the PhD students' rights, pursuant to the regulations in force, the PhD Course demands an exclusive, full-time commitment to the assigned research project, and the PhD students will attend courses, seminars and workshops as indicated in the University regulation concerning the PhD Courses and as indicated by each curriculum. Participation in and attendance at these activities will be certified.

PhD students awarded positions with fellowship or the position without fellowship will be required to choose a Supervisor with whom they will carry out their research project. They will then have to inform the PhD Office about their choice, following the methods provided for by the operating procedures.

All PhD students will undergo an annual examination conducted by the Course PhD committee and aimed at certifying the completion of all the activities scheduled for the ending year. As indicated in the University procedures for the management of the PhD Courses, the renewal of the fellowships is subject to the positive result of this examination. The management procedures of the annual assessment are detailed in the University regulations concerning the PhD courses.

In addition to what is established in case of failure to pass the annual examination and upon advice from the PhD committee, the Course Coordinator can propose to the Rector a temporary suspension or exclusion of the PhD student. This must occur with a justified deliberation and after consulting the interested person and be the consequence of unjustified and prolonged absences or infringement of the regulations of the PhD Courses.

Only during the legal duration of the Course, all the students must attend educational and research activities at scientific institutes or laboratories abroad, according to the rules and the timing established by the Supervisor for at least 6 months and in any case not exceeding 12 months, except for a thesis in cotutelle where this period can be extended to 18 months.

The Course Coordinator has the responsibility to explain to the PhD Students their duties and rights.

Article 10 Fellowships

The yearly amount of the fellowship is €16,243.00, subject to the INPS [Italian Social Security] separate management contribution, according to the regulations in force.

The total fellowship duration is three years. However, it is renewed annually upon successful completion of the annual review. The PhD student must have completed all the activities planned for the previous year, pursuant to the PhD Courses operating procedures.

All PhD students (including those without a fellowship) may apply for a budget for periods of research to be carried out abroad.

PhD students awarded with a fellowship who spend a research period abroad will have their fellowship increased by 50% for a maximum of 12 months. In any case, the scholarship supplement for periods spent abroad is not granted during any extension year or during the period between the end of the official duration of the PhD Course and the completion of the degree.

PhD students without fellowship are also granted a budget for activity abroad. The amount is based on the duration of the research period. The grant must be used as a refund for travel expenses.

Each year excluded any period of extension, all PhD students are granted a budget covering research activity in Italy and abroad, in addition to the scholarship and based on the available financial resources. The said budget shall be adequate to the type of course and shall amount to at least 10% of the fellowship.

Budget not used within the legal duration of the Course may not be used during the possible period of extension or in the time between the end of the legal duration of the Course and the award of the title.

Fellowships cannot be combined with other fellowships, granted for any reason, with exception of those granted by Italian or foreign institutions that are useful to integrate the PhD student research activity by means of periods abroad.

Since the enrollment in the PhD Course demands an exclusive, full-time commitment to the assigned research project, it is not compatible with full-time collaborations (both permanent and fixed-term contract), other employment contracts will be evaluated by the Course PhD committee or by the Course Coordinator delegated for this purpose.

Furthermore, the fellowship cannot be combined with other research grants ("assegni di ricerca").

The fellowship starts upon the effective commencement of attendance, unless otherwise agreed upon and approved by the PhD Office.

The payment of the fellowship is made in deferred monthly instalments.

Those who have previously attended (even at another University) a PhD Course receiving a fellowship and eventually obtained the title, may be admitted to a new Course not covered

by a fellowship, after passing the Assessment phase. On the contrary, those who have previously attended (even at another University) a PhD Course receiving a fellowship without eventually obtaining the title, may be admitted to a new Course covered by a fellowship, after passing the Assessment phase. The fellowship, upon presentation of appropriate documentation proving the partial receipt of the fellowship for the PhD Course previously attended, will be recalculated on the basis of the difference between the legal duration of the Course and the monthly amount already received.

Benefits (regional fellowships for PhD Students without a fellowship or research fellowship) will be implemented in accordance with what is provided by the Decree of the President of the Council of Ministers of April 9th 2001 – “Uniformity of treatment as regards the right to attend university studies”, pursuant to Art. 4 of Law no. 390 of December 2nd 1991, as amended by Italian Legislative Decree no. 68 of March 29th 2012, and the resolutions of the Lombardia Region.

The fellowships are IRPEF [personal income tax] exempt, pursuant to Art. 4 of Law no. 476 of 13 August 1984.

Article 11 Contributions to access and attend courses

All PhD students are required to pay €1,690.00 for insurance against accidents and third-party liability, duty stamp, regional tax, and contributions for admission to and attendance at the courses.

The sums to be paid may be subject to change at the time of enrollment to the following years.

The fees are to be paid in two instalments that are divided as follows for the first year:

- The first payment is € 950 to be paid at the time of enrollment;
- The second payment is € 740 to be paid by February 28th, 2027.
