Students whose scholarship entitlement is revoked for any reason also lose their right to exemption from the enrolment fee and tuition fees and are required to pay the amounts due as envisaged by art. 9 of this call for applications.

**FIRST PART**

**SCHOLARSHIPS**

**ARTICLE 1. NUMBER OF SCHOLARSHIPS**

Number of Scholarships offered for students enrolled with Vita-Salute San Raffaele University for the 2021/2022 academic year:

**18** scholarships for students enrolled in the first year of a Bachelor's Degree, Master's Degree or Single-Cycle Degree course for the first time;

**45** scholarships for students enrolled in years after the first year of a Bachelor's Degree, Master's Degree or Single-Cycle Degree course;

**2** scholarships for students enrolled in PhD courses if not in receipt of a scholarship or research grant, and in Specialisation courses (except for medical specialisation courses covered by Legislative Decree 368/99);

**5** scholarship supplements including refund of travel expenses for participation in international exchange schemes, with amounts and award procedures governed by art. 10 of the Prime Ministerial Decree dated 9 April 2001.

The total number of scholarships and international exchange scheme supplements may be raised in case of any additional funding assigned by the Lombardy Region, the Ministry of Universities and Research, the University or other public or private institutions. In this case, the new benefits will be awarded to the non-beneficiary eligible students in the next positions in the ranking.

**ARTICLE 2. GENERAL ELIGIBILITY REQUIREMENTS**

The call for applications is open to Italian, European Member State and Non-EU students in accordance with Presidential Decree no. 394 of 31 August 1999, implementing Legislative Decree no. 286 of 25 July 1998.

In order to be considered for a scholarship students must be enrolled or declare their intention of enrolling:

- 1) for the first time, in a standard year of a Bachelor's Degree, Master's Degree or Single-Cycle Degree course;
- 2) for an additional year over and above those envisaged by the relevant didactic regulations after completing the standard course of study for a Bachelor's Degree, Master's Degree or Single-Cycle Degree course;
- 3) in a PhD course (if not in receipt of a scholarship or research grant);
- 4) in a Specialisation course (except for medical specialisation courses covered by Legislative Decree 368/99).

Diversely able students with disabilities of 66% or above registered for a further two years after completion of the standard course of study for a Bachelor's Degree, Master's Degree or Single-Cycle Degree course are also eligible.

**During the 2021/2022 academic year, students must not:**

- 1) hold an educational qualification, awarded in Italy or abroad, equal or superior in level to the course for which the scholarship for the 2021/2022 academic year is applied for;
- 2) be in receipt of another scholarship from Vita-Salute San Raffaele University or other public or private institutions for the same year of the degree course.

Students will also be excluded from the rankings for the award of scholarships if during the 2021/2022 academic year:

- 1) they renew their enrolment after having withdrawn from their course;
- 2) they are repeating students in intermediate years of the course;
- 3) they switch Faculty or degree Course with the obligation to repeat a year already attended;
- 4) they transfer between universities with the obligation to re-enrol for a year already attended.

If, during their university career, students have been required to repeat a year of their course, also after re-enrolling further to a withdrawal, the number of credits required for inclusion in the scholarship rankings is calculated with reference to the credits available for each year completed, from their first year of matriculation **in any course**, also including the academic years in which they have repeated a course year.

**ARTICLE 3. PREREQUISITES FOR ELIGIBILITY FOR THE RANKINGS**

In order to be eligible for the definitive rankings, applicants must be properly enrolled for the 2021/2022 academic year as of 30 November 2021 and must meet the academic merit and income requirements set out below. For verification of the deadline for enrolment for Master's Degree, PhD and Specialisation courses, reference is made to the provisions of the current regulations of Vita-Salute San Raffaele University.

**Academic merit qualifications**

- a) students enrolled for the first time **in the first year of a Bachelor's Degree, Master's Degree or Single-Cycle Degree course** are required to hold a high school diploma with mark of at least **80/100** and must be properly enrolled for their course. Academic merit will be assessed retrospectively and in accordance with article 9 of this call for applications;

- b) students enrolled for the first time **in the first year of a Master's Degree course** must be properly enrolled for their course and must have obtained at least **150** ECTS-credits. Academic merit will be assessed retrospectively and in accordance with article 9 of this call for applications;
- c) for students enrolled in **PhD courses** (if not in receipt of a scholarship or research grant) and in **Specialisation courses** (except for medical specialisation courses covered by Legislative Decree 368/99), the academic merit qualifications will be the same as those necessary for admission to the relevant year of the course;
- d) students registered for **years after the first year of Bachelor's, Master's and Single-Cycle Degree courses** must be properly enrolled and must have achieved the number of ECTS-credits set out below by **10 August 2021**:

- **Bachelor's Degree Courses:**

Year 2: 49 ECTS-credits

Year 3: 95 ECTS-credits

Last semester (1st year beyond prescribed time): 150 ECTS-credits

- **Single-Cycle Degree Courses:**

Year 2: 49 ECTS-credits

Year 3: 95 ECTS-credits

Year 4: 160 ECTS-credits

Year 5: 215 ECTS-credits

Year 6: 270 ECTS-credits

Last semester (1st year beyond prescribed time): 330 ECTS-credits

- **Master's Degree Courses:**

Year 2: 45 ECTS-credits

Last semester (1st year beyond prescribed time): 90 ECTS-credits

*The minimum number of ECTS-credits for **Master's Degree courses** is increased by a number of credits equal to the number in excess of 180, if any, held by the student at the time of enrolment.*

*ECTS-credits for examinations taken in order to recoup educational deficits are not considered in the above totals.*

*The results of the final examinations of internships undertaken, for reasons relating to the university's own organisational planning, after 10 August 2021 will be considered valid, provided the results of the said examinations are received by 31 October 2021.*

*For diversely able students with disability of 66% or over, academic merit qualifications which vary by no more than 40% from those set out in the above table may be set. Academic merit qualifications will be established by a specific commission, with advice from the teacher appointed to support the diversely able students concerned.*

**Important:** the number of ECTS-credits necessary for admission to the ranking is calculated on the basis of the ECTS-credits available for each academic year completed, starting from the very first year of matriculation, and thus also including academic years in which a student repeated the same year of enrolment, also in different Degree courses attended previously, for any reason, such as withdrawal, transfer or switching between Degree courses. In accordance with art. 6, comma 8, of Prime Ministerial Decree dated 9 April 2001, only the ECTS-credits awarded for the course for which the funding is applied for are considered, on the basis of the didactic regulations for the course and the relative criteria.

As envisaged by Lombardy Regional Council resolution no. XI/4906 of 21 June 2021, any surplus credits (in excess of those required or from outside the course curriculum), or those not valid for award of the degree, are not included in the academic merit total.

## **Bonus**

Students enrolled in years after the first year of Bachelor's and Single-Cycle Degree courses are assigned a bonus which they may use, just once during the course of study, to make up any differences between the minimum number of ECTS-credits required and the credits they have actually gained. The size of the bonus varies depending on the year of enrolment in which the student decides to use it. Specifically, the bonus totals:

- **5 credits** if used for the first time for the award of funding for the second academic year;
- **12 credits** if used for the first time for the award of funding for the third academic year;
- **15 credits** if used for the first time for the award of funding for subsequent academic years.

The bonus can only be used **once** and is not cumulative; it is irrevocably defined in the scholarship application. The part of the bonus not used in any given academic year can be used in subsequent years. The bonus accrued and not used in the Bachelor's Degree course can be used if the student enrolls for Master's Degree courses. This rule does not apply to students enrolled on Master's Degree courses established under the old regulations. Students who obtained their Bachelor's Degree from another University must submit suitable documentation proving the number of "bonus" credits accrued and not used.

## **Economic status prerequisites**

Students' economic status is defined on the basis of the Equivalent Economic Status Indicator (ISEE) for university funding, established by Prime Ministerial Decree no. 159 of 5 December 2013.

The family units of students who apply for economic assistance must meet the following criteria<sup>1</sup>:

- an ISEE indicator value for university funding entitlement not exceeding **€ 23,000.00**;
- a University Equivalent Capital Asset Indicator (ISP/equivalence scale) value not exceeding **€ 50,000.00**.

---

<sup>1</sup> For the calculation of the ISEE Economic Status Indicator for entitlement to university funding, the criteria contained in Prime Ministerial Decree 159/2013 will be applied, with particular reference to art. 8 and the relative INPS circular no. 171 of 18/12/2014.

In the cases specifically envisaged by article 9 of Prime Ministerial Decree 159/2013 as amended only, a current, valid ISEE Certificate may be submitted.

Both limits must be complied with; if either limit is exceeded, the student concerned will be considered not to meet the financial criteria and to be ineligible for funding.

### **Family unit**

The student's family unit is defined in accordance with and using the methods specified in Prime Ministerial Decree no. 159 of 5 December 2013.

### **Financially independent students**

In accordance with the provisions of article 8, comma 2 of Prime Ministerial Decree 159/2013, students are considered financially independent when both the following circumstances apply:

- they have lived separately from their family unit of origin for at least two years prior to the date of submission of the personal declaration referring to the family unit, in accommodation not belonging to a member of the said family unit;
- they have filed tax returns declaring income from regular employment or contract work of at least € 6,500.00 for at least two years.

If both the above circumstances do not apply or are not sufficiently documented, students shall not be considered financially independent and therefore the income and asset status of their family unit of origin shall be considered for the purposes of the selection process.

### **Income and asset assessment for foreign students**

The economic status of foreign students or Italian students resident abroad is assessed in accordance with the provisions of article 8 comma 5 of Prime Ministerial Decree 159/2013 and, pending approval of the Ministerial Decree envisaged by article 7, comma 7 of Legislative Decree 68/2012, the economic status of foreign students is assessed on the basis of the Foreign Equivalent Economic Status Indicator established by articles 5 and 13 of the Prime Ministerial Decree of 9 April 2001.

The income and asset status of foreign students from outside the European Union is assessed using the methods established by Legislative Decree no. 286 of 25 July 1998, as amended (articles 4 comma 3 and 39) and Presidential Decree no. 394 of 31 August 1999 (art. 46, comma 5) as amended.

The income and asset status of the family units of foreign students must be certified by suitable documentation issued by the competent authorities of the countries in which the incomes are produced, and must be translated into Italian by the Italian diplomatic authorities with competence for the territory concerned.

In case of countries where there are particular difficulties in issuing the certification authenticated by the local Italian Embassy, it must be issued by the competent foreign representations or consuls in Italy and legalised by the Prefectures in accordance with art. 33 of Presidential Decree no. 445 of 28 December 2000.

For foreign students from particularly poor Countries, economic status is assessed on the basis of certification by the Italian Representation in the country of origin, confirming that the student does not

belong to a wealthy family of high social status.<sup>2</sup> The said certification may also be issued by the foreign university where the student is enrolled, linked to the University by agreements or conventions, or by Italian authorities empowered to issue guarantees of economic cover, in accordance with current regulations governing the matriculation of foreign students at Italian universities. In this last case, the certifying organisation undertakes to repay the scholarship on the student's behalf if it is revoked.

However, students are obliged in all cases to declare any incomes and assets held by their family unit in Italy in accordance with Prime Ministerial Decree 159/2013, with an ISEE certificate for university funding entitlement.

To allow evaluation of the income/assets of their family unit, all foreign students and Italian students resident abroad must submit copies of the following documentation:

- document certifying the composition of the family unit;
- income generated by every member of the family unit during the 2019 calendar year;
- documentation on the real estate owned by the family unit, specifying the floor area of the properties owned as at 31 December 2019;
- certification of the investments owned by the family unit during 2019.

In all cases, the income declared by foreign students must be at least € 5,983.64, equivalent to the minimum living income, which must be proven when applying for a study visa for entrance to Italy. This value is the minimum threshold for the evaluation of economic status prerequisites.

## **ARTICLE 5. SUPPLEMENTATION OF SCHOLARSHIPS**

### **a) Disabled students**

If the beneficiary belongs to the categories defined by art. 2 of Law no. 118 of 30 March 1971, or another legally safeguarded disability category, with degree of disability of at least 66%, the annual amount of the scholarship may be increased up to a maximum of € 2,821.00 for locally resident students, € 4,014.00 for commuting students and € 7,353.00 for students living away from home. This additional scholarship, awarded on the basis of a motivated application from the student concerned, may be converted into the provision of specialist equipment and differentiated teaching materials, hall of resident places, the allocation of a carer, study assistant or interpreter, or any other measure appropriate to overcome specific individual difficulties.

### **b) Study abroad**

Students receiving scholarships for the 2021/2022 A.Y. and those who are eligible but not in receipt of scholarships (including PhD students) may apply for supplements to cover study abroad.

The scholarship supplement will be awarded on the basis of the academic merit ranking drawn up in accordance with article 6 below.

The grant is **€ 550.00 a month** for the duration of the time spent abroad, up to a maximum of ten months. The foreign study programme must be certified by the international exchange office of Vita-Salute San Raffaele University. Grants for participation in international exchange schemes and internships are only awarded to eligible students once for each course attended.

## **ARTICLE 6. STUDENT RANKING PREPARATION PROCEDURES**

Student rankings are prepared on the following criteria:

### **a) For students enrolled in the first year of all Degree courses**

The ranking for students enrolled for the first time in the first year of all courses is prepared on the basis of the family unit's Economic Status Indicator for university funding entitlement ("University I.S.E.E."), in relation to the maximum limit of € 23,000.00, with a maximum of 1.000 points awarded using the following formula:

$$\left\{ 1 - \frac{\text{University I.S.E.E.}}{\text{€ 23,000.00}} \right\} \times 1,000$$

Students are listed in the ranking in decreasing order of score awarded. If scores are tied, the student enrolled on the higher degree course takes precedence; if there is still a tie, the mark obtained in the educational qualification prevails, after which the preference goes to the student younger in age.

Students who have not yet formally registered for the first year of a Master's Degree course in accordance with the University regulations will be entered in the ranking "under reservation" pending completion of registration.

### **b) Students enrolled in years after the first year of all Degree courses**

Students are listed in the ranking in decreasing order of total score derived from the sum of the number of ECTS-credits achieved **by 10 August 2021** (including the credits for the final examinations of internships undertaken, for reasons relating to the university's own organisational planning, after 10 August 2021, provided the results of the said examinations are received by 31 October 2021) and the score obtained from the average mark in the examinations taken. A total of 1,000 points are available, broken down as follows: 600 on the basis of the number of ECTS-credits gained and 400 on the basis of the average mark in the examinations passed.

In case of a tie on academic merit, the student who has not used the ECTS-credit bonus will take precedence, followed by the student with the higher ranking on economic status. In case of a further tie, the younger student will prevail.

### **Method for calculation of academic merit score**

The score for the ECTS gained by 10 August 2021 is calculated using the following formula:

$$\text{(Student's ECTS - Minimum ECTS)} \times \frac{600}{\text{(Maximum ECTS - Minimum ECTS)}}$$

The score for the average mark in the examinations passed is calculated using the following formula:

$$\text{(Student's average mark - Pass mark)} \times \frac{400}{\text{(Maximum mark - Pass mark)}}$$

### c) Students enrolled in PhD and Specialisation courses

The ranking is drawn up on the basis of the criteria set out in point a) above.

If included in one of the eligibility rankings defined in points a), b) and c) above, diversely able students with disability of at least 66% are entitled to award of a scholarship even if this will be in addition to the number of scholarships initially offered.

- at least 49 ECTS-credits for students enrolled in Bachelor’s and Single-Cycle Degree courses;
- at least 45 ECTS-credits for students enrolled in Master’s Degree courses.

The numbers of credits set out above do not include those relating to examinations already taken at the time of enrolment or examinations taken in order to recoup educational deficits, surplus credits (in excess of the normal number or not included in the course curriculum), or those not considered in the academic merit score and not valid for the purposes of the merit rankings, but they do include the credits relating to the final examinations of internships undertaken, for reasons relating to the university's own organisational planning, after 10 August 2022, provided the results of the said examinations are received by 31 October 2022.

If they fail to achieve the minimum ECTS-credits required for payment of the balance of the scholarship, as specified above, by 10 August 2022, all **students in receipt of scholarships and eligible students not receiving scholarships** are entitled to total waiver of their enrolment fee and half their tuition fees.

Students in the first year of all university courses, except for PhD and Specialisation courses, who have not achieved at least 35 ECTS-credits by 30 November 2022, will have their scholarships revoked. The above ECTS-credits must be achieved for the course in which students were enrolled in the year when the scholarship was awarded, or the course in which they enrol the following year, even if different.

A "bonus" of 5 ECTS-credits may be used in order to meet the above deadlines.

Students whose scholarship is revoked must repay the sums received and the amount corresponding to the value of the services actually used. They will also forfeit their right to exemption from university enrolment and tuition fees (**this applies both to students receiving scholarships and eligible students who do not receive them**) and students are required to make the necessary payments to cover these amounts. Agreements may be reached for the payment of these sums in instalments.

The regulations relating to the revocation of the scholarship and payment of the second instalment do not apply to diversely able students with disability of at least 66%.

#### **b) For students enrolled in years after the first year of all courses**

Scholarships will be paid in two instalments, each amounting to half the amount of the scholarship payable in cash, by the following due dates:

- **31 December 2021**
- **30 June 2022**

#### **c) Supplementation of scholarships for study abroad and travel expense refunds**

These additional amounts will be granted to students included in the scholarship academic merit rankings until all funds available under this call for applications have been allocated. The amount due will be paid at the end of the period of study abroad, after verification with the University's international exchange offices that the obligations arising from participation in the exchange scheme have been fulfilled.

#### **ARTICLE 10. INELIGIBILITY - FORFEITURE**

Scholarships are not cumulative with other forms of funding provided by Vita-Salute San Raffaele University or other public or private institutions, with the scholarships for foreign students awarded by the Ministry of Foreign Affairs, or with the award of free accommodation in halls of residence or hostels; in

these cases, students may decide which of the two forms of funding to accept. The above does not apply to scholarships awarded by national or foreign institutions to enable scholarship students to undertake study abroad as part of their course of study or research;

Students forfeit their right to the scholarship if:

- they are in receipt of disciplinary measures in excess of a caution, for offences committed against Vita-Salute San Raffaele University;
- they fail to submit any original documentation requested for verification of the accuracy of the self-certification submitted to Vita-Salute San Raffaele University by the requested deadline;
- Vita-Salute San Raffaele University finds that the data they have declared in their self-certification are untrue;
- they submit an application to withdraw from their course or to transfer to another University during the 2021/2022 A.Y.

## **ARTICLE 11. TRANSFERS**

If a student transfers to another University after the start of the academic year, Vita-Salute San Raffaele University will forward the application submitted to it to the Student Funding Department of the University to which the student has applied to transfer, and therefore the student will forfeit the scholarship granted by Vita-Salute San Raffaele University (and must therefore return any instalments already received).

Students who have transferred from another University to Vita-Salute San Raffaele University after the start of the academic year must ask the Student Funding Department of their University of origin to forward their application, provided it has been submitted in compliance with the terms of the call for applications. The transfer must be finalised by 30 November 2021, before the definitive student ranking is published.

## **SECOND PART**

### **SUBSIDISED ACCOMMODATION AT**

#### **CASSINELLA HALL OF RESIDENCE**

##### **Background**

Vita-Salute San Raffaele University hereby informs all students accommodated in its halls of residence that, in view of the ongoing health emergency, they are obliged to conform to all measures adopted by the University to date and/or which it adopts in the future in compliance with current and/or future regulations issued by the competent authorities in response to the COVID-19 emergency or any other emergency situation.

##### **ARTICLE 12. NUMBER OF SUBSIDISED PLACES**

Number of subsidised places at the Cassinella Hall of Residence - on Via Cassinella at Vimodrone - offered for students enrolled with Vita-Salute San Raffaele University for the 2021/2022 academic year:

- a) **11** for students enrolled in the first year of all Degree courses— from 27/09/2021 to 31/07/2022;
- b) **19** for students enrolled in years after the first year of all Degree courses who have already been allocated a place in the Hall of Residence for the 2020/2021 academic year – from 23/09/2021 to 31/07/2022;
- c) **3** for students enrolled in years after the first year of all Degree courses— from 27/09/2021 to 31/07/2022;
- d) **2** for students enrolled in PhD courses (if not in receipt of a scholarship or research grant), and in Specialisation courses (except for medical specialisation courses covered by Legislative Decree 368/99) - from 27/09/2021 to 31/07/2022.

If there are insufficient students eligible for subsidised accommodation in some rankings, the residual places will be awarded to students eligible in other rankings, until the total number of accommodation places set by the call for applications itself has been awarded.

##### **ARTICLE 13. PREREQUISITES FOR APPLICATION AND INCLUSION IN THE ACCOMMODATION RANKINGS**

The subsidised accommodation application process is open to students living away from home (see article 4) who have submitted a scholarship application and who thus meet the economic and academic merit requirements set out in the first part of this call for applications (articles 2 and 3).

When calculating the number of ECTS-credits, those awarded for 2020/2021 A.Y. internships undertaken, for reasons relating to the university's own organisational planning, after 10 August 2021 will also be considered on a "provisional" basis, provided the corresponding ECTS-credits - awarded when the student passes the end-of-internship examination - are gained by 31 October 2021. If the failure to gain the ECTS-credits by the above deadline means that the student in question fails to reach the minimum total required by this call for applications, he or she will be excluded from post assignment.

The following will be excluded from the subsidised accommodation rankings:

- students who have been subject to University disciplinary measures more severe than a warning;
- students who have outstanding debts with Vita-Salute San Raffaele University;
- students who have forfeited their room due to violation of the Hall of Residence regulations.

#### **ARTICLE 14. STUDENT RANKING PREPARATION PROCEDURES**

Student rankings are prepared on the following criteria:

##### **a) Subsidised accommodation for students enrolled in the first year of all Degree courses**

The ranking for students enrolled for the first time in the first year of all courses is prepared on the basis of the family unit's Economic Status Indicator for university funding entitlement ("University I.S.E.E."), in relation to the maximum limit of € 23,000.00, with a maximum of 1.000 points awarded using the following formula:

$$\left\{ 1 - \frac{\text{University I.S.E.E.}}{\text{€ 23,000.00}} \right\} \times 1,000$$

Students are listed in the ranking in decreasing order of score awarded. If scores are tied, the student enrolled on the higher degree course takes precedence; if there is still a tie, the mark obtained in the educational qualification prevails, after which the preference goes to the student younger in age.

##### **b) Subsidised accommodation for students enrolled in years after the first year of all Degree courses who have already been allocated a place in the Hall of Residence for the 2020/2021 academic year.**

Students are listed in the ranking in decreasing order of total score derived from the sum of the number of ECTS-credits achieved **by 10 August 2021** (including the credits for the final examinations of internships undertaken, for reasons relating to the university's own organisational planning, after 10 August 2021, provided the results of the said examinations are received by 31 October 2021) and the score obtained from the average mark in the examinations taken. A total of 1,000 points are available, broken down as follows: 600 on the basis of the number of ECTS-credits gained and 400 on the basis of the average mark in the examinations passed.

In case of a tie on academic merit, the student who has not used the ECTS-credit bonus will take precedence, followed by the student with the higher ranking on economic status. In case of a further tie, the younger student will prevail.

##### **Method for calculation of academic merit score**

The score for the ECTS gained by 10 August 2021 is calculated using the following formula:

$$\text{(Student's ECTS - Minimum ECTS)} \times \frac{600}{\text{(Maximum ECTS - Minimum ECTS)}}$$

The score for the average mark in the examinations passed is calculated using the following formula:

$$\text{(Student's average mark - Pass mark)} \times \frac{400}{\text{(Maximum mark - Pass mark)}}$$

**c) Subsidised accommodation for students enrolled in years after the first year of all Degree courses**

The ranking is drawn up on the basis of the criteria set out in point b) above.

**d) Subsidised accommodation for students enrolled in PhD and Specialisation courses**

The ranking is drawn up on the basis of the criteria set out in point a) above.

Students who have not yet formally registered in accordance with the University regulations will be entered in the rankings “under reservation” pending completion of registration.

Priority will be awarded in all rankings to disabled students with invalidity of 66% or more until all rooms suitable for the candidate's needs have been filled.

The deposit can be used also as a source of compensation for any damage to the structure of the Hall of Residence and deductions can be made to offset any outstanding amounts owed to the University.

With regard to the current COVID-19 health emergency or in case of any other unforeseeable emergency situations, students should note that the timing and dates in general relating to the accommodation service covered by this call for applications may be subject to change further to measures issued, now or in the future, by the competent national and/or local authorities, or University measures.
