CALL FOR ADMISSION TO THE INTERNATIONAL MEDICAL DOCTOR PROGRAM
(with license to practice medicine – Classification LM-41)
RESERVED FOR EUROPEAN CITIZENS
AY 2022/2023

Article 1 – number of places available

Selection for admission to the single-cycle Degree Course in Medicine and Surgery in English language – ‘International Medical Doctor Program’ – (Classification: LM-41) is disciplined by an entrance test and based on the number of places available, which are to be confirmed by the resolution of the Italian Ministry of University and Research – MUR.

The number of places available for European citizens for the AY 2022/2023 is 72.

Article 2 – Definition of the European quota and academic requirements

2.1 – Definition of the European quota

EU citizens, non-European citizens residing in Italy and non-European citizens with EU equal status¹ as indicated by the Ministerial Circular of April 19, 2021, named “Procedures for entry, residency and enrolment of international students and the respective recognition of qualifications, for higher education courses in Italy for the academic year 2021-2022”, available on the official webpage of the MUR’s website: <https://www.studiare-in-italia.it/studentistranieri/>.

Hereafter they will all be referred to as *European citizens*.

2.2 – Academic requirements for enrolment in the IMD Program

In order to enrol in the International MD program, candidates must have a high school leaving qualification (Diploma/Certificate) as per law n. 910 art.1, December 11, 1969.

Students with non-Italian high school qualifications must refer to the academic requirements indicated in the Ministerial Circular of June April 19, 2021, named “Procedures for entry, residency and enrolment of international students and the respective recognition of qualifications, for higher education courses in Italy for the academic year 2021-2022”.

¹ Citizens from Norway, Iceland, Liechtenstein, Switzerland, Republic of San Marino and the Holy See State of Vatican City compete for the EU Citizens’ quota.

Candidates having a non-Italian high school leaving certificate or attending the last year of an international/non-Italian high school are required to send a copy of their final Diploma/Certificate or a copy of their transcripts at ammissioni@univr.it **before registering for the admission test.**

The Admissions Office will carry out a preliminary check of the school documents.

The International MD Program is entirely taught in English. Therefore, proof of Italian language knowledge is not requested.

Article 3 - registration for the admission test

In order to sit the admission test, candidates must pay the test fee, which amounts to **€ 200**. Payment is done according to the methods indicated on the online registration website.

Payment of the test fee alone does not mean the candidate has completed the registration for the test.

The test fee payment is non-refundable, regardless of circumstance.

Registration for the test must be done exclusively online through the University website (www.univr.it). Online registration opens **on November 2, 2021 at noon (CET) and closes on February 18, 2022 at noon (CET)**. Each candidate has to sign up, complete the online registration procedure, book one of the test sessions available (day, time and location) and pay the test fee as detailed in point 3.1 here below.

3.1 - Registration procedure

In order to register for the test, candidates have to:

1. Enter their personal data;
2. After registering, click on the link to the website where they will be able to see the sessions available and select the preferred test date, time and location;
3. Pay the test fee within **30 minutes** following the test session booking. Otherwise, the reservation will be automatically cancelled;
4. After paying the test fee, candidates will receive a confirmation of registration and payment via e-mail and the procedure will be concluded;
5. If payment is NOT done within 30 minutes following the test booking, the reservation will be automatically cancelled and the candidate will have to repeat booking procedure and payment;
6. If payment is done after 30 minutes following the test booking, the candidate will receive

a payment confirmation e-mail, but the test session reservation will be automatically cancelled and it will have to be repeated as soon as possible.

The system will prevent bookings if the session is already fully booked. In this case candidates will have to select another session available.

Changes of the test session must be carried out directly by the candidate by:

1. Entering the system with username and password;
2. Verifying the availability of places in the new chosen session;
3. Making a new reservation that will replace the previous one.

The candidate will then receive an e-mail confirming the change of test session and the new reservation that will replace the previous one.

A change of the test day will be permitted only until February 18, 2022 at noon (CET). Any candidate who is not able to take part to the selected session and has not changed session before the deadline, will not be allowed to sit the test on another date even if there are available seats.

Information on registration, chosen session and payment is always available in the candidates' personal area (www.unisr.it and Selexi Portal) and can be checked anytime by logging in with the credentials obtained upon registration. **Information contained in the candidates' personal area is the only official confirmation of registration, chosen session and payment.**

A summary table will be published on the University website (www.unisr.it) within the day before the first test session with the pre-enrolment code for each candidate and for each test session.

Please be aware that each candidate is responsible for the details indicated during the registration procedure. In case of wrong, missing or untruthful data, the candidate will not be included in the final ranking list and will consequently be prevented from enrolling. The University will randomly verify the information provided by the candidates.

Article 4 - delivery of the admission test

4.1 Test modality

The admission test for the International MD Program reserved for EU citizens will take place in different sessions scheduled **between February 26, 2022 and March 5, 2022** as detailed in the table here below. **The test will be computer-based.**

UniSR reserves the right to postpone the test sessions, should the Covid-19 health emergency prevent candidates from taking the test in-person.

As the International MD program is entirely taught in English, proof of Italian language knowledge is not required.

Seen the number of candidates who have registered for the past admission tests and the availability of computer seats, the admission test cannot be taken contemporarily by all candidates signed up and therefore the EU citizens' admission test is organized in three sessions as follows:

DAY	TIME	LOCATION
Thursday March 3, 2022	14:30 (CET)	Milano, Roma, Napoli, Bari, Reggio Calabria, Catania, Palermo, Cagliari
Friday March 4, 2022	08:30 (CET)	Milano, Roma, Napoli, Bari, Reggio Calabria, Catania, Palermo, Cagliari
Saturday March 5, 2022	08:30 (CET)	Milano, Roma, Napoli, Bari, Reggio Calabria, Catania, Palermo, Cagliari

It will be possible to take the test in one of the following locations in Italy:

Milano – Roma – Napoli – Bari – Catania – Palermo – Reggio Calabria – Cagliari

The address of each test center will be communicated to all candidates and also published on the University website (www.unisr.it) after the closure of the registration period.

Should technical problems prevent one or more candidates from taking or finishing the test,

the University will schedule an extra session *only* for those candidates who have experienced such problems. If an anomaly occurs during the test, the exam software continuously registers and saves any input given by the candidate together with the time still available. Therefore, if a single computer accidentally stops working, the issue will be immediately dealt with by the staff: the candidate will be able to resume the exam from his/her computer or from a different computer reserved to emergency cases, without this affecting the exam itself.

Should the total number of seats available not be sufficient for the number of candidates registered for the admission test, further sessions could be scheduled. In this case a notice with information and details will be published on the University website.

Candidates are requested to show up at the time indicated in the above table. The test will start when the identification procedure will be finished for all candidates.

Candidates will be allowed to sit the test upon handing a valid identity document at their arrival. No further documentation is needed.

Candidates will be taking the test using a computer, equipped with only a mouse, which will be exclusively connected to the exam session software. Each candidate will be able to choose his/her own seat and will have to insert username and password s/he was given during the identification procedure. The admission test will start contemporarily for all candidates once the person in charge of the session will proceed with the test activation. Until that moment the software used for the exam will remain encrypted.

Each candidate can finish the admission test before the given time by clicking on “finish the test” or can stay in the hall until the time finishes. In both cases, the software tracks and saves every change done before the time runs out.

Thanks to the matching between the Candidate’s PIN code given to each student during the identification procedure and the test code, which is created randomly only when the test begins, each candidate will be unequivocally and automatically connected to the test taken.

Candidates who arrive late and after the official beginning of the test, will not be allowed to take the test no matter what reasons they have for their lateness.

Any further information will be published on the website www.unisr.it

4.1.1 – Candidates with disability or with SLD

Candidates with any kind of permanent or temporary disability in need of extra means of

support, must formally request the support they will need for this test in relation to the extent of their disability, be it also additional time for completing the test (law n° 104 February 5, 1992 and as modified by the law n.17/1999). Candidates with specific learning disabilities according to the law n°170 October 8, 2010 with the new regulation concerning specific learning disabilities within the educational environment can request the special terms according to the Ministerial Decree n. 5669, July 12, 2011.

The request for certified compensatory tools must be entered when registering for the admission test (art. 4) by attaching the form “Request for compensatory tools” available and downloadable from the university website <https://www.univr.it/servizi/inclusione> .

No medical certificates or other documents containing medical-health information must be attached during the registration procedure.

A medical certificate in support of the above-mentioned kind of requests must be sent exclusively via e-mail to inclusione@univr.it no later than the application deadline for registration indicated in this competition call, which is February 18, 2022 at noon (CET).

According to the law n. 170/2010, certificates confirming learning disabilities must not be older than 3 years and must be issued by specialists or offices of the National Health System or by private health institutions recognized by the National Health System.

4.2 Content of the test

The test is entirely in English and consists of 60 multiple choice questions divided as follows:

- 36 questions on logic, problem solving and reading comprehension;
- 24 questions on scientific subjects (Biology, Chemistry, Mathematics and Physics)

Candidates will have **80 minutes** to complete the test.

The questions of the admission test are property of Università Vita-Salute San Raffaele, managed by a third party and randomly extracted from a database.

Since the admission test is delivered in more sessions (as specified at point 4.1) and in order to guarantee transparency and impartiality, each exam session will have its own set of questions divided as previously explained.

For each exam session there will be a minimum of three different sets of questions available. One of these sets of questions will be randomly chosen through an automated tool before the

beginning of each session.

4.3 Reserve questions and deleting procedure

At the end of the test (i.e. at the end of the 80 minutes or if the candidate decides to finish the test earlier) every candidate will have to answer **7 more questions** in a time which is proportional to the time given for the entire test and which is calculated automatically by the software. These reserve questions are coherent with those of the test and **WILL NOT count as part of the test** but will only be considered if, at the end of all scheduled sessions, an anomaly should emerge on one or more questions. Only in this case, the Head of the Selection Procedure, after having received the Committee's opinion, can decide to delete that particular question and substitute it with one of the extra questions on the same topic.

4.4 - Delivery of the test

At the test center, after identification, each candidate has to confirm his/her presence by signing a register and is given a pen and sheet for writing notes and calculations. Candidates will not be allowed any other equipment with exception for what is permitted to candidates with disabilities (point 4.1.1).

After the identification procedure has been completed, the candidates will be accompanied to the test hall and will be asked to take a seat. Each candidate will then be able to enter the system using the PIN code s/he was given during the identification procedure and will be allowed to access the following information on:

- How to answer the test questions;
- How to confirm the chosen answer by using the mouse and selecting the corresponding box (answers written on the paper sheets given for making notes will not be considered);
- How to modify or delete the given answers. This will be possible for the entire duration of the test;
- The possibility of making notes and calculations and how to ask for more paper if needed. (**Papers and pen have to be returned at the end of the test**);
- How to leave the hall in case of particular needs and accompanied by a staff member.

During the test, candidates are not allowed to communicate to anyone but the staff and

supervising committee. Candidates are also not allowed to keep personal belongings with them such as bags, books or notes, dictionaries, mobile phones, smart watches, calculators or any electronic device. Candidates will be given indications for storing these items in a specific place. Violation of this rule means being expelled from the competition. The Test Committee will ensure that rules are respected and will act accordingly if any violation occurs.

Article 5 – ranking list

After all exam sessions will have ended, the tests will be anonymously corrected and **the ranking list** will be drawn up basing on each candidate's final score.

The score is calculated as follows:

- 1 point for each correct answer;
- -0,25 points for each incorrect answer;
- 0 points for each non-given answer.

The ranking is formed with the overall score obtained by each candidate.

At the end of the score calculation, each candidate will have access to the Online Review through the university website www.unisr.it where s/he will be able to view his/her test and the score obtained by accessing the system with the login credentials given on the test date.

The Admissions Office will publish a notice on the website www.unisr.it informing on the opening of the Online Review system after the last admission test session will have taken place.

The final ranking list will be published within 15 days from the last exam session.

In case of a draw, the points scored by the candidates in logic and problem solving, reading comprehension, biology, chemistry, mathematics and physics will prevail in descending order. In case of a further draw, the place is assigned to the youngest candidate.

The scores obtained by the candidates and the ranking list will be available on the University's online Board and on the dedicated pages of the website www.unisr.it.

Candidates ranking among the first 72 positions and with a score equal or higher than 45/60 will be admitted and will be able to enrol without having to meet any additional learning requirements (OFA).

Candidates with a score lower than 45/60 but ranked among the first 72 positions or admitted thanks to the scrolling of the ranking list will be able to enrol with additional learning requirements (OFA) to be fulfilled according to the indications given by the Academic Board.

Candidates with a score lower than 30/60 will not be admitted and will not be able to enrol even if they are ranked among the first 72 positions or gain position thanks to the scrolling of the ranking list.
